

## Treasury Department,

BUREAU OF THE MINT,

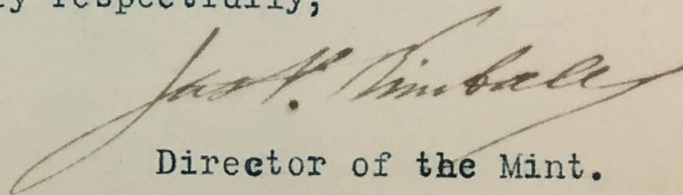

Washington, D. C., November 15, 1887

Sir:

With reference to Voucher 83, month of October "S.S.D.," Thomas G. Morton, medical services, I may say that I am aware of no precedent for such a voucher. It certainly calls for explanation, and it is doubtful whether it will pass the Auditor under any circumstances.

I assume that a physician was summoned to the mint in three cases, but I do not see, nevertheless, how the standard-silver-dollar profits can be used for a voucher of this kind.

Very respectfully,

Director of the Mint.

Hon. Daniel M. Fox,  
Superintendent U.S. Mint,  
Philadelphia.

A mistake in the mind of  
the Director - they were not  
so used. The bill was charged  
to "Appar for Foreign of Aid.  
Silver Dollars" LRL
